

"I underwent LASIK over 17 years ago. Since then, I've performed LASIK on my Mom, my Dad, my brother, my best friend, lots of high-profile patients, and just about everybody else that I've known since elementary school. (And last time I checked, they are still talking to me!)

So yes, I can truly say I am 100% confident in the safety and results of Laser Vision Correction."

Craig S. Bindi, M.D.
